- ◆ Promoter will adjust overall prizelist due to number of entries received: 100%→100%, 75%→75%, etc.

STAGE 1 [The Max Kash Agro Time Trial]→The TT is an out & back for 3.5 miles and flat with a couple of big rings rollers. It's a fast course and definitely suited for TT aero equipment (bring the funny bikes!). (Roads: start on East Benton at Washington. The race will go North on Washington, and riders will make a u-turn approx. 1/10 mile before they reach Winchester Road/SR-79). **STAGE 2 [The California Pools and Spas Road Race]**→The RR is 13.4 miles per lap. It is a great course with moderate rollers and flats (the Pro/II-only feedzone will be on Anza Rd, past the Start/Finish area). The finish line is on Anza Rd., about ¼ mile from De Portola/Anza junction. All right hand turns, and you will not need more than a 21 gear. (Roads: Anza Rd., right on Rancho California Rd., right on Glen Oaks Rd., right on De Portola Rd., right on Anza Rd.). **STAGE 3 [The Bosch Criterium]**→The Criterium is not the typical industrial park event. It's held in French Valley and only a block away from several food/shopping establishments. It is approx. .5 miles per lap, four corners, with a slight incline to the finish line. (Roads: Finish line on Commerce Ct., right on Calistoga Dr., right on Murrieta Hot Springs, right on Town View Ave., & right again to Commerce Ct.) **custom Russ Denny road frame to be raffled at race's end!**

Omnium **POINTS** awarded for each stage finish/placing towards overall General Classification: **everyone's eligible!!!**
